Client: Twin County Regional Healthcare, LLC

Location: Galax, Virginia

Square Footage: 255

Schedule: 4 months

Completion Date: December 2024

Key Partners

• HVAC Inc. Building Solutions

Expanding Pharmacy Capabilities with Modern Upgrades

Project Summary

This project focuses on modernizing and optimizing pharmacy operations to enhance patient care. The renovation includes upgraded ductwork, a new dedicated rooftop unit for improved climate control, and enhanced mechanical components to support pharmaceutical storage and safety. Interior finishes will be completely updated, featuring a new eyewash station, sink, flooring, doors, hardware, and fresh paint throughout the suite. These enhancements ensure compliance with industry standards while creating a more efficient and functional workspace for pharmacy staff.

CRC's Healthcare Construction Division is a trusted partner in healthcare construction and renovation. We bring extensive experience in medical environments and understand the unique challenges of hospitals and healthcare facilities. Our specialized services include medical equipment installations, pharmacy renovations, behavioral health unit upgrades, central sterile renovations, medical suite buildouts, med-gas improvements, kitchen & cafeteria renovations, and more. From planning to execution, we ensure precision and quality in every project. Our ICRA and ASHE certifications guarantee the highest standards of infection control, patient safety, and operational continuity. Learn more at crchealthcare.com.
